Date Time Functions

A date itself is a type of a data type

are functions that help us to handle dates in our data.

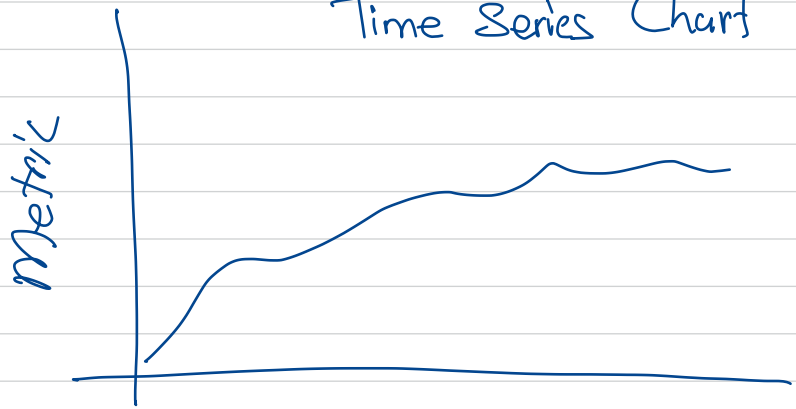
Extract the
- Year
- Day
- Week
- Month
- Hour
- minutes
- Quarters
- Seconds

Indicates a specific period
↳ indicates an event

OLTP database

captures transactions at a specific period of time

Time Series Chart



We need to understand the Date functions so that we can handle or manipulate the date in our data

2025-06-02

① YEAR() - It is used to extract the year on the date column

```
SELECT YEAR('2025-06-02') AS year_of_love
```

year_of_love
2025

② MONTH() - Extract the month

```
SELECT MONTH('2025-06-02') AS month_value
```

month_value
06

- We normally use the date functions within the SELECT statement
- A function placed within the SELECT statement creates a new column
- We have to use the AS to rename the column whenever we apply a function on it

③ DAY() - Extracts the day

```
SELECT DAY('2025-06-02') AS DAY_VALUE;
```

DAY_VALUE
02

4 DAYNAME( )

Extract mon-sun based on the system calendar (Time zone)

```
SELECT DAYNAME('2025-06-02') AS Dt
```

Dt
Mon

5 MONTHNAME( )

Extracts month name as in Jan-Dec based on the system time zone (DMS)

```
SELECT MONTHNAME('2025-06-02')
```

MONTHNAME('2025-06-02')
Jun

DATEADD (unit, value, date)

value — Represents increament decreament

date — Date column

It is used to add or subtract a date interval

Unit
- DAY
- MONTH
- YEAR

```
SELECT DATEADD (DAY, 2, '2025-06-02') AS 2_later
```

YYYY-MM-DD

2_later
2025-06-04

YYYY-MM-DD

SELECT DATEADD (DAY, -2, '2025-06-02') AS 2_later

2_later
2025-05-31

YYYY-MM-DD

SELECT DATEADD (YEAR, 2, '2025-06-02') AS Years

Years
2027-06-02

DATEDIFF (unit, date1, date2)

- used to calculate the difference between two dates

date2 - date1 = value

unit - DAY, MONTH, YEAR

SELECT DATEDIFF (YEAR, '2025-06-02', '2027-06-02')

2

CURRENT_DATE() — it gives you today's date based on the DMS settings

```
SELECT CURRENT_DATE();
```

'2026-04-13'

```
SELECT CURRENT_TIMESTAMP();
```

'2026-04-13 20:05:54:13'

will give you the date and the time.
